### ABOUT

Designed by Ligne Roset, brand-Ligne Roset.

Today, 'high-end decor' fuses design with arts and crafts in a straightforward, uncomplicated way. The quest for the exceptional, rare piece, responds to a growing need for easy personalization in people's homes. The OXY FLUID and OXY DROPS panels respond perfectly to this need: the oxidization process produces a fascinating aesthetic effect on each disc. Corrosion provokes original physiochemical reactions which are different each time, rendering each item a unique piece. The metal acquires texture and ochre tones, producing a unique, artistic motif. Diameter - 80cm.
